

Keep on Roland
24 July 2013
Lyrics by Jim Carrey

I've been here from the very start I weren't so steady and I weren't so smart
But I kept on rollin.

I thought I would land on the beach one day and all I loved would go away,
But I kept on rollin.

At times I felt so alone out there like if I disappeared who would give a care,
And feeling so small isn't fun isn't fair when I look deeper I am everywhere

My name is Roland and I be rollin'
If you think you're one small wave, you're gonna change your song
Just roll like me someday you'll see that we were the whole wide ocean all along.

When its raining you can say hello to me you can ride me down the river to the deep
blue sea cuz I keep on rollin.

Nobody else can take your moment in the sun it seems like we're so many but we're
only one so why why don't we keep on rollin?

At times it can feel so alone out there like if you'd disappear, who would give a care?
Feeling so small isn't fun isn't fair but when we get deeper we are everywhere

My name is Roland and I be rollin'
If you think you're one small wave, you're gonna change your song
Just roll like me someday you'll see that we were the whole wide ocean all along.

Let's sing it again when the chorus begins all you fishes clap your fins!

My name is Roland and I be rollin'
If you think you're one small wave, you're gonna change your song
Just roll like me someday you'll see that we were the whole wide ocean all along.

(spoken) I'm parched. I think I need a glass of me!
